

A True Landmark

Old Building Was Involved In Pioneering Spirit And Growth

The building in the Glades is more interestingly and historically involved in the pioneering spirit and growth of the Glades than is the old home of Belle Glade Motors, which will in its salvaged use "give" us have its builders, the American Legion.

In the first ten years it was here the Legion Hall served the community as a gathering place for schoolwork, religious meetings, women's activities, dancing, banquets and community halls are used for.

Fittingly, tugs should be rendered by Glades Legionnaires on the passing of a "soldier of the community."

During the chaos following the 1928 storm when Dr. William J. Buck, Executive Director of the American Legion, and General Military Commander and Red Cross Director of mass burials, shelter food and rehabilitation, many, many tons of supplies were donated several hundred dollars for materials with which the 50 by 100 foot Legion Home was built, and included a long list of equal contributions.

Camps became carpenters overnight on lots donated by Capt. Hamm Holloway. Boxing contests, wrestling, football, basketball and dancing were first nursery for migratory families. Sunday School, Church, Boy Scouts, Women's club, and what you were always welcome.

The first Everglades Fair (including the Goodvees blimp) and numerous others, had their base of operations in the Legion Hall and the surrounding grounds.

Work Is An American Heritage . . .

All we living around Lake Okeechobee realize that we are basically dependent on the land and tillers of the land for our very existence. If material welfare you are a professional man, skilled or semi-skilled worker, peasant or agricultural worker your living comes directly or indirectly from the soil.

After the historic freeze of now, we found standing on the streets of Belle Glade, the historic great deal of unemployment was directed at the farmers of this area. Some people thought they were not doing their share toward assuming responsibility for the welfare of the unfortunate of our community.

On The Other Hand . . .

The other side of the story: Some of the very people found in the bread lines last year can

That Day To Remember Is Here Again

"Seventeen years ago this coming Sunday Americans were aroused from an air of complacency and plunged into a world conflict which lasted four years. That date was Sunday, Dec. 7, 1941."

These were the words of Everglades American Legion Post Commander Bill Eggleston who spoke out in a pre-Pearl Harbor Day message to Legionnaires and citizens of the Glades.

Very recently, Post Commander Charles Smith joined Commander Eggleston in his statement by urging that our memory of the day be tempered with the wisdom gained in the 17 years since that date; and urged that people everywhere support our country's efforts toward world peace.

"American Legion Post members," he added, "are not enough. Citizens must actively participate in their government by learning its functions and expressing opinions on all basic issues to our representatives in state and national governmental bodies. We don't want to be forced to remember another Pearl Harbor."

Many a stormy session was held in the hall to debate the merits of planting—flats, blacks, or white, for instance—in various projects of the Legion post. Having the land preparation, seed fertilizer and cultivation donated, the post usually ended up with a profit for the community welfare fund.

Legionnaires joining with Community Center, Inc., the originator and operator of the Everglades Experiment Station at Okeechobee—found that a planned eight-hour nursery quickly became an orphanage.

From six months to six years, the children of the nursery were quickly responded to the medical supervision of diet, regular habits and supervised exercise, which extend that parents were reluctant to carry them home.

Everyone in the community participated in the program, including the group through Dr. W. T. Forsee to be the guests of the community at a dinner to be held at the Elks Club on the 10th and 11th.

Periodically, these scientists attend a two-day conference and collaboration in the various projects.

Everyone in the community participated in the program, including the group through Dr. W. T. Forsee to be the guests of the community at a dinner to be held at the Elks Club on the 10th and 11th.

Paul Kirchner, who officiates at the barbecue stand and with the help of members of the committee, will offer the visitors a choice of barbecue, fried chicken, ribs, celery, radishes, tossed salad of Glades leaf vegetables.

Each of the civic clubs, Civilian, Lions, Jaycees, Jayettes, Chamber of Commerce, together with the Livestock Market, the County Cattlemen's Association and the Brokers group are among the official hosts.

The many community groups it has served, not the least of which has been a source of satisfaction, inspiration and accomplishment of service to the community, should be relied upon for the future generation in the Glades.

Employment Level Up

To date, Florida's non-farm employment for 1958 has remained at approximately 1.5 million, constantly each month. Only other states have had this same experience and nationally each month in 1958 it has fallen below the corresponding month in 1957.

A NEW SERIES in the 1959 Ford line—the Galaxie—represents some of the taste and styling flavor of the Thunderbird than any other Ford model. Compared here, the Galaxie Town Victoria in the foreground bears a strong resemblance to the 1959 Thunderbird — especially in the roof area, yet it is priced to sell only \$48 above comparable models in the Ford Fairlane 500 series. The new luxury series includes six different body styles and will be available at Ford dealerships in early December.

The competition is open to boys and girls under 19 years of age. The compete in separate divisions in the local, state and national contests.

National awards, identical for boys and girls, are a \$1,000.00 Gold Savings Bond for first place, \$500.00 Bond for second place and \$300.00 Bond for third place. In addition, the top boy and girl will receive a trip to Chicago to appear before the National Elks convention next July, according to Charles C. Bowie of San Benito, Tex., Chairman of the contest which includes the Contest. Money for the national awards is given by the Elks National Foundation, the Order's charitable trust fund.

...

The local contest will be conducted by W. J. Norris. Entry forms and further information about the Contest may be obtained from Mr. Norris.

New BGPD Assignments

Donald Tanner, Belle Glade High School graduate, has been assigned to the Belle Glade Police Department school zone officer. He will enter the same zone as his father, who is a school board member.

Chief Charles Goedlett also announced the appointment of Patrolman James Jackson to the parking beat. Both appointments, he said, were temporary at this time.

Elks Sponsor Youth Contest For \$5 Prizes

The Elks Lodge today called for nominations in the 10th annual National Youth Leadership Contest sponsored by the Benevolent and Protective Order of Elks.

...

Gerald McKee, exalted ruler of Belle Glade Lodge 1716 invited school officials, members of the clergy, civic organizations and parents to enter the names of boys and girls from this area who have demonstrated their ability as leaders. He emphasized that it was not a scholastic contest.

The local contest will be conducted by W. J. Norris. Entry forms and further information about the Contest may be obtained from Mr. Norris.

**Rebekahs Will Observe
25th Anniversary**

Belle Rebekah Lodge held its
regular meeting at the Bene
Hall Tuesday evening
with Noble Grand Ethel Imes
presiding.

The final election of new of
ficers for the coming year was
conducted. It was announced
that the new board for
this year will be held at the home
of Mrs. Loraine Webster
Tuesday evening, December 9,
1958.

All members are urged to attend
the last meeting of the year
December 16th, as this is
also the 12th anniversary of the
Belle Rebekah Lodge.

**Nominations Expected
For FHP Auxiliary At
Monday Night Meeting**

Monday, Dec. 8, members of the
Lake Okeechobee unit of the
Florida Highway Patrol
Auxiliary made nominations of
officers for the Dec. 15 election.
Four new officers and two ex-
isting positions will be filled,
according to Supt. John Zimmer-
man, unit commander.

Supt. Zimmerman said the unit
obtained six more recruits who
will begin their 40-hour training
course soon after the pre-
season graduation. There
will be four more meetings before
the course is completed.
The next class will begin some-
time in January.

Membership in the auxiliary
is limited to Legionnaires in
good standing with a lake area
post. Interested persons may
obtain more information at the
Pahokee FHP Barracks.

Job And Worker

(Continued From Page 1)
they would like to have, if they
were to take a job. By doing this
and work at it to the best of
their abilities, many of their
problems and the problems of
the employer would be solved.

Pay You Own Way

Why not accept the work that
is to be had, make yourself in-
dispensable to your employer,
be self-sufficient? A job is bet-
ter than no job. Good compensation,
insurance benefits or
welfare, and goes a long way to-
ward building mutual respect
for another. Working people
are happy people, independent
people.

Don't RENT . . .

This country was developed
through the efforts and just
plain hard work of industrious,
hard-working people. If we are to
continue as a great, free nation, we must not forget
the basic foundations upon
which our country was founded.

DRESSING UP! Stars of western television shows take great pride in their wardrobes. Each of the outstanding western favorites shown here not only "lives the part" he portrays . . . he looks it down to the last authentic detail. Wayne, above, star of Warner Bros., "Sugarfoot," seems mighty happy with his brand new pair of fine western boots. Who could blame him?

PONTIAC! America's Number 1 Road Car!

Coupe • Star Chief • Bonneville

PONTIAC MAKES V-8 HISTORY! A Pontiac Tempest 4206 has set a NASCAR sanctioned and supervised 2,442 mil. coast-to-coast economy mark on regular gasoline. 130 miles per hour average speed (100 m.p.h. to 60 m.p.h.). See your Pontiac dealer for details and a test drive.

You've never known a car to ride so smoothly or handle so surely . . . because no car was ever built like this before. And that wide, solid stance is only the beginning. Engineering's latest secret power lies in to produce this one feature. That's why new Tempest's new engine gives you the most remarkable performance on wheels . . . if it's extra economy you're after, Pontiac has, at no extra cost, a new V-8 companion, the Tempest 4206, that actually delivers better gas mileage than many smaller cars with so-called "economy engines"—and uses regular gas for further savings! There are great new True-Contour Air-Cooled Brakes for smooth, safer stops. And inside, seats wider than a sofa! Come in and see this new '59 Pontiac for yourself.

Giant Project Contract Awarded By US Engineers

The Central and Southern Flood Control Project, involving the largest earth moving project this nation has attempted since World War II, the Lake Okeechobee Canal reached another milestone this week as a \$929,070.00 contract was awarded to the L. & A. Contracting Co., of the L. & A. Contracting Co., Inc., Belle Glade, Fla., for initial construction north of Lake Okeechobee.

The contract was awarded by

Colonel Paul D. Troxler, District Engineer for the U. S. Army Engineer District, Jacksonville, and calls for improving Canal 40, Section 1, Indian Prairie Canal, and for Constructing Structures 72 and 75. Canal 40, Section 1 consist of improving an approximate six mile portion of Indian Prairie Canal from Okeechobee northwesterly to the site of Structure 72, including some required levee construction. Structures 72 and 75 are gated by bay and 75 is respectively reinforced concrete spillway structures, complete with vertical lift gates electrically operated from an overhead control platform, concrete service bridge, steel sheet pile cut-off and retaining walls, stone protection, access to Structure 72 and other work.

Work sites are along Indian Prairie Canal in northeast Glades County. The Canal 40, Section 1 portion extends from Lake Okeechobee northwesterly to the site of Structure 72. The site of Structure 72 is about 2.5 miles from State Road 78 bridge across Indian Prairie Canal and about 2.5 miles upstream from State Road 721 bridge across Indian Prairie Canal.

"This construction," Troxler said, "will provide better flood control between Lake Istokpoga and Lake Okeechobee."

The District Engineer stated

that Mr. L. A. Contraction Co. is to complete the work not later than 470 calendar days after receipt of notice to proceed with the construction.

SAL RR Bridge Closed Dec. 9 For Repairs

Pursuant to a request by the Seaboard Air Line Railroad Co., the Department of the Army has issued orders to the closure to navigation of the drawspan of the SAL RR bridge over the St. Lucie Canal at Indian River from 6 a. m. to 6 p. m. on Wednesday, Dec. 9.

The closure is made necessary in order to make needed repairs to the spans. All vessel operators are advised to consider alternate routes when scheduling vessel trips through the St. Lucie Canal and Okeechobee Waterway.

Water Control Project

Florida's first water control project will be completed this month in Highlands County. It will be used to control a chain of lakes and will ultimately flow into Lake Istokpoga, the second largest lake in Florida.

in Campbell's single engine racing car "Bluebird" and has not yet been broken.

Hot Chocolate City
Florida's missile city, Cocoa, got its name in 1882 when the townsmen were discussing a new name for their community and the general store. The postal authorities had just informed them that the original name, "Indian River City," was too long when a box of Baker's Cocoa was delivered, and from it they selected their city's present name.

SAVE TIME "Parzate" is easy to handle, easy to store, easy to mix. Carry Du Pont "Parzate" powder on the sprayer and mix wherever you have water. This eliminates travel time to mixing points and helps to increase the number of acres sprayed each day.

SAVE MATERIAL Simply pour conveniently packaged Du Pont "Parzate" into the spray tank. This eliminates waste from spillage and loss of material that can't be recovered from container. All the powder you pay for, goes to work for you.

SAVE TROUBLE Du Pont "Parzate" is manufactured under controlled conditions. When properly mixed, you're assured that every spray load contains the right amount of "Parzate" for effective control of plant diseases.

On all chemicals, follow label instructions and warnings carefully
